Support what's important to you

Do you value our program and what you've learned?

Happy Birthday, New Year's Babies!

Please consider giving back to the dojo in any way you can. Purchase your martial arts equipment through us, donate time and energy, and spread the word. Tell friends, family, and co-workers about our Women's Self-Defense Seminar. Mention intro classes to other parents at school events. Blog, tweet, Facebook post, and otherwise promote our classes and events. Offer to help out around the building. Even if we say, 'not right now' - keep asking. We will need your help in spring cleaning, tournament prep and execution, etc.

Our dojo relies on its 'family' to run at peak performance. Please keep us strong and available to help *you* keep strong!

Spread the Love of Karate

One of the ways our program remains healthy is by adding new students on a regular basis. We have continuing enrollment, so it's never a bad time to begin.

How does someone start an Introductory Program? It's simple!

Prospective students (and/or parents if they're under 18) fill out a Pre-Enrollment Form, schedule a private lesson, and pay \$39.95+tax to begin. We are happy to distribute forms in person or over email, schedule in person, by phone or email, and accept most forms of payment. *Remember the student uniform is included in the program price.*

Please ask questions! Class scheduling questions or concerns, timing, policies and procedures, etc. We love to hear from our dojo family and anyone you send to us!
